## SUMMARY

**Full-stack developer (frontend-focused)** with experience in building scalable web and mobile applications using React, Next.js, React Native, and Firebase. Proficient in API integration, authentication, and real-time data handling using Firebase, along with database design using Prisma and PostgreSQL. Skilled in Stripe and PayTab payment systems, and focused on delivering high-performance, responsive UIs.

## WORK EXPERIENCE

### SORA LABS | Remote

- Software Engineer I (Full-time)** Jul 2025 – Aug 2025
  - Contributed to major web applications built with Next.js and Firebase, including a real-time chat system for an educational platform.
  - Collaborated with designers to enhance UI/UX, implementing thoughtful interface changes based on user behavior and product goals.
- Software Engineer I (Contract)** May 2025 – Jul 2025
  - Refactored legacy codebases to align with modern best practices, improving maintainability and performance.
  - Worked on Firestore for data management and Firebase Authentication for secure access control.

### Apptycoons | Karachi, Pakistan

- Associate Software Engineer** Feb 2023 – Apr 2025
  - Developed and integrated APIs using React Query in a Next.js + NestJS environment.
  - Managed and updated database schemas with Prisma and PostgreSQL.
  - Built reusable components, developed responsive screens, and managed navigation logic in React Native applications for both iOS and Android devices.
  - Worked with Stripe integrations including coupons, checkout sessions, webhooks, and referral systems.
  - Implemented PayTabs for in-app payments with proper error handling and state management.
  - Improved chat systems using Twilio for real-time messaging.
  - Enhanced performance metrics like CLS and TBT across production builds.
- Full Stack Engineering Intern** Dec 2022 – Feb 2023
  - Built and styled user interfaces using Tailwind CSS and MUI.
  - Designed and developed responsive app screens from Figma designs.
  - Built and validated complex forms with React Hook Form and Yup.
  - Integrated third-party platforms like Instagram and TikTok via their APIs.

## TECHNICAL SKILLS

---

### Frontend:

React.js, Next.js, React Native, TypeScript, JavaScript, Vue.js, Nuxt.js, Tailwind CSS, MUI, CSS3, HTML5, React Tanstack Query, Zustand, React Hook Form, Toastify

### Backend:

NestJS, Prisma, PostgreSQL, Firebase (Firestore, Auth), API Integration, NextAuth

### Dev Tools & Others:

Stripe, PayTab, Twilio, Docker, Figma, Copilot

## PROJECTS

---

### Laundry Service App (React Native | NestJS | PostgreSQL | PayTabs)

Built customer, vendor, and rider apps with real-time order tracking and secure payment flows. Implemented PayTabs integration and reusable React Native components for seamless user experience.

### Tutoring Web Platform (Next.js | Firebase)

Developed a session scheduling system with robust timezone support for global users, featuring real-time controls for pausing, resuming, and stopping sessions, integrated notes-taking for collaboration, and flexible tutor availability with early scheduling options for students.

## EDUCATION

---

### Bachelors of Science in Computer Science

2020-24

NED University of Engineering and Technology | Karachi, Pakistan  
CGPA: 3.677/4.0
